

E30NC-24

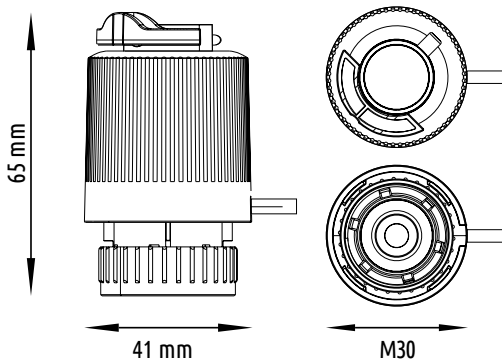

Thermal Actuator, 24V, NC

- Power supply 24V AC/DC (safe voltage)
- Due to the safe voltage (24V) – suitable for use in public buildings (e.g., schools, kindergartens)
- Thread size M30
- Low power consumption (only 2W) – energy efficiency
- High durability – long-lasting performance
- Compact size – easy installation

24V

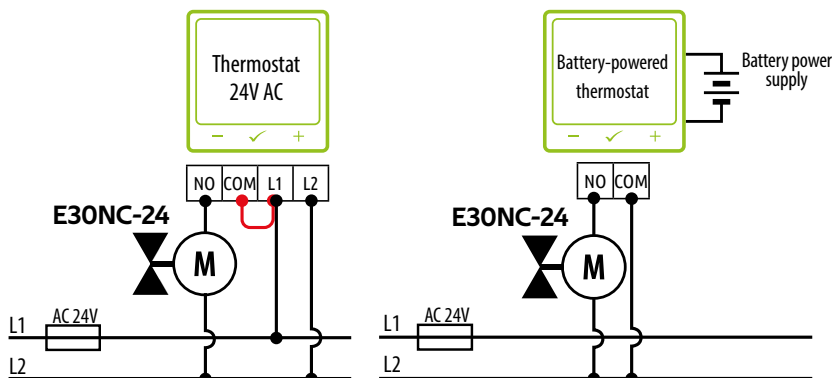

24V AC 50HZ

TECHNICAL INFORMATION:

Version	NC = Normally Closed
Thread size	M30 x 1.5mm
Power supply	24V
Power consumption	2W
Inrush current	400mA / 200ms
Thrust force	100N +/- 15%
Max. stroke	4.5mm
Storage temperature	-25°C to +60°C
Ambient temperature	Max. 60°C
Protection class	IP 54/II
Cable length	90cm
Dimensions [mm]	Ø 41 x 65

CONNECTION DESCRIPTION:

INSTALLATION PROCESS:
